INFORMATION.

ADMISSION.

For admission to the Freshman Class of the Classical Course, an examination must be well sustained in the following studies, or *their equivalents:*

Latin—Six books of the Æneid; three books of Cæsar's Commentaries; five Orations of Cicero; Allen & Greenough's or Harkness' Grammar, including Prosody; Allen's or Harkness' Introduction to Latin Composition; Liddell's History of Rome, to Book IV.

Greek—Goodwin's Greek Reader, or two books of the Iliad, with three books of Xenophon's Anabasis; Goodwin's or Hadley's Greek Grammar, including Prosody; Writing Greek, with accents; Smith's Greek History, to Book III.

Mathematics—Arithmetic, with Metric System; Algebra, to Equations of the Second Degree; the first four books of Loomis's Geometry.

Geography, History, Etc.—Modern Geography; History of the United States; English Grammar.

☞Candidates for admission to the Freshman Class of the Scientific Course are examined as above, with the omission of Latin and Greek.

The regular examination of candidates for admission will be held at the University on the Monday and Tuesday preceding the Annual Commencement, and on the Tuesday and Wednesday of the first week of the Fall Term of the College Year.

Special examinations will be held in October and June of each year, on application of the Board of Education, *at any school to which a Free Scholarship has been given.* At such places examination will be made of any applicant intending to pursue a regular course at the University on the *whole* or *any part* of the requirements for admission; and a certificate will be issued on such branches as may be successfully passed. This certificate, if presented within eighteen months, will entitle the holder to entrance without further examination on the branches certified to.

Whoever offers himself for examination thereby expresses his intention, if admitted, to enter the class for which he is examined.

Candidates for advanced standing will be examined in the studies previously pursued by the classes which they propose to enter. Candidates from other colleges will be required to present certificates of dismission in good standing.

TERMS.

The First Term of the regular course of study begins on the Wednesday next preceding the fourth Sunday in August, and closes the day before Christmas.

The Second Term begins on the first Wednesday in February and continues until Commencement day, the Wednesday next preceding July 4th, unless both occur the same week, in which case Commencement will be on the Wednesday of the next preceding week.

TERM EXAMINATIONS.

A thorough examination of all the classes will be held at the close of each term.

PUBLIC WORSHIP.

Devotional exercises, consisting of prayer with reading of the Scriptures and singing, are conducted every morning in the College Chapel; and all students are required to attend.

Students are required to attend regularly on Sunday the church of their choice.

ABSENCES.

Students wishing to teach are allowed to be absent not more than ten weeks in any one year, on the condition of passing satisfactory examinations before the Faculty on all the subjects read by the class during their absence.

RHETORICAL EXERCISES.

One afternoon of each week during the College Year is set apart for Rhetorical Exercises, at which all students, at frequent and stated periods, are required to present orations, translations, essays or readings. In addition to these public exercises, frequent private rehearsals and careful personal drill are given to each student.

LECTURES.

Lectures were given last year by President Gaines, President Atwood, Superintendent Fred Seymour, of Watertown, Principal M. R. Sackett, of Gouverneur, Prof. F. H. Peck, Rev. E. R. Armstrong, and Dr. L. E. Felton, of Potsdam.

The course for the present year is announced as follows:

Feb. 27. "Homeric Lands,"..... Prof. J. S. Lee, D. D.
Mar. 12. "Astronomy, with Illustrations,"..... Prof. H. Priest.
" 26. ——————..... Prof. H. E. Seaver.
Apr. 2. ——————..... Prof. J. H. Chapin, Ph. D.
" 16. "Reminiscences of Oxford,"..... Rev. Wm. A. Rich.
" 30. ——————..... L. P. Hale, Esq.

These lectures are delivered in the College Chapel, and are open to all students of the University, and to such others as may choose to attend.

PRIZES.

RUSSELL PRIZES.

A prize of Twenty Dollars has this year been offered by Leslie W. Russell, ex-Attorney-General, to the member of the Freshman Class showing the greatest excellence in oratory; also, a second prize of Ten Dollars to the member of the same class standing next in proficiency.

RICH PRIZES.

Prizes are this year offered to members of the Sophomore Class by the Rev. Wm. A. Rich, of Canton, as follows: For excellence in oratory, a first prize of Fifteen Dollars; a second prize of Ten Dollars; a third prize of Five Dollars. To be publicly competed for.

PARKER PRIZES.

A prize of Fifteen Dollars has this year been offered by the Hon. Abram X. Parker, of Potsdam, for the best original English oration or essay by a member of the Junior Class.

Also, a prize of the same amount for the best delivery of an original English oration by a member of the Junior Class.

DETURS.

Prizes in money and books are given for special excellence in various branches of the College work.

SIGHT READING.

During the present year a course of exercises in the Sight Reading of Latin Authors will be given by the Professor of Latin. These exercises will be held once a week, and are open to all students of the College.

MICROSCOPY.

Students in Botany and Physiology are taught the use of the dissecting and the compound microscopes, and advantages are offered for practical work with the latter instrument.

DRAUGHTING.

Special instruction will be given in Freehand Drawing and Draughting, including the construction of the various kinds of geometrical and topographical drawings, the design and construction of machinery and bridges, and the preparation of architectural plans. Particular attention will be given to draughting in connection with surveying and other kindred subjects.

THE SCIENTIFIC COURSE.

Students in this course have the option of pursuing any two of the three languages, French, German and Latin. When Latin is taken, it is read through the entire course. The Faculty recommend that students in the Scientific course elect Latin as one of their languages.

DEGREES.

Graduates in the Classical Course receive the degree of Bachelor of Arts.

Graduates in the Scientific Course receive the degree of Bachelor of Science.

The degree of Master of Arts, or Master of Science, will be conferred on such graduates, of not less than three years standing, as shall have pursued, to the acceptance of the Faculty, subsequent to graduation, professional, literary, philosophical or scientific studies. But after the Commencement of 1886, these degrees will be conferred, in course, only in accordance with the following programme:

ADVANCED DEGREES.

Bachelors of Arts of three years standing may take the degree of *Master of Arts*, and *Bachelors of Science* of three years standing may take the degree of *Master of Science* on passing an examination on some literary or scientific course of study to the satisfaction of the Faculty. As it is designed that these degrees shall represent real and solid attainments in scholarship, the Faculty, whenever it may be deemed advisable, will call to their assistance Professors of other Colleges and other persons of acknowledged proficiency in the subjects involved.

Specific courses leading to the above degrees have been arranged by the Faculty in the following subjects: Latin, Greek, Modern Languages, English Literature, Philosophy, Political Science, Mathematics and Astronomy, Physics and Chemistry, Natural History and Botany, History. A pamphlet containing a detailed statement of these courses will be sent to persons interested on application.

Candidates who are examined may also, if they desire, present disserations on topics in their field of study which they have specially investigated.

Resident graduates who have completed an adequate course of study may be admitted to an examination for a second degree before the expiration of three years if the Faculty deem it proper.

Masters of Arts and *Masters of Science* may be examined for the degrees of *Doctor of Philosophy* and *Doctor of Science;* but such degrees will be conferred only after satisfactory proof of the faithful and successful prosecution of courses of study fully equal in extent and quality to those required for similar honors in the best Universities.

Notice of application for examination must be given to the President at least two months before Commencement. The fee for the Diploma of the second degree is Dollars, and of all subsequent degrees Dollars, to be paid to the Treasurer in all cases before

LIBRARY.

All students in good standing are entitled to the privileges of Herring Library, which contains nearly nine thousand volumes, comprising all classes of subjects.

A new card catalogue is in process of preparation in accordance with the latest and most approved methods. This work is already well advanced and will be completed at the earliest practicable date.

READING ROOM.

A Reading Room, well furnished with the necessary tables, racks, etc., and supported and controlled jointly by the students of *both* Departments of the University, is open at all hours of the day.

The leading American and English magazines and reviews, together with most of the popular religious, scientific and secular periodicals and newspapers, are kept constantly on file.

By authority of the Executive Committee, each student of the University is required to pay, on or before October 1st, in each year, a fee of One Dollar for the support of the Reading Room, unless excused therefrom by the Presidents of the Departments.

EXPENSES.

TUITION.

The annual tuition fee for each student is thirty dollars. No reduction for absence, except in case of prolonged sickness.

BOARD.

Board can be had of the Steward at $3.00 per week, washing included; or, if preferred, in private families at prices ranging from $2.00 to $4.00 per week.

BOOKS.

By special arrangements with publishers, books can be obtained at the University at cost for cash.

COLLEGE BILLS.

All College bills will be made out by the Treasurer; each bill will contain one-half the annual charges. Unless other and satisfactory arrangements shall be made with the Treasurer, the first bill will be delivered December 15th, and must be paid on or before February 10th; the second bill will be delivered one week before Commencement, and must be paid on or before September 15th; but the second bill of the Senior year must be paid at least one day before Commencement. Students who leave College before graduating must pay in full all College bills at the time of leaving.

DISCIPLINE.

The President, in accordance with the By-Laws and Resolutions of the Board of Trustees, shall supervise and direct the course of instruction and the discipline of the College.

It is earnestly desired by the government of the University, that the students may be influenced to good conduct and diligence in study, by higher motives than fear of punishment. The sense of duty and honor, and the generous feelings which belong to young men and women engaged in honorable pursuits, are appealed to as the best regulators of conduct. The following rules, however, have been enacted for the guidance of students:

1. Every student shall be subject to the laws and government of the College, and show in speech and behavior all proper respect and obedience to the Faculty. Any transgression of this law may be punished, even to expulsion, as the nature and aggravation of the offense may demand.

2. If any student shall commit an injury to the person, property, or premises of a fellow student, or of any other person within the town of Canton; or deface, or in any way injure the College walls, furniture or buildings, he shall make reparation therefor, according to the nature of the offense or injury; and also be subject to such punishment as the case may require.

3. Every student of the University, during the hours of study, shall abstain from hallooing, singing, loud talking, playing on any musical instrument, and from making any disorderly noise in or around the College buildings.

4. No student shall go out of town, so as to be absent from any College exercises, without leave first obtained from the President or some member of the Faculty.

5. When any member of the Faculty shall be convinced that a student is guilty of frequenting bar-rooms, billiard-rooms or saloons; or of disorderly behavior; or of keeping improper company; or of idleness, or profane language, or profaning the Sabbath; or of the habitual use of intoxicating drinks; or that he is frequently absent from his room late at night, or during study hours without sufficient reason; he shall admonish him of his behavior; and if he continues unreformed, it shall be reported to the Faculty, who shall admonish him again, and make known his case to his parents or guardian; and if he still persists in such course he shall be expelled, and shall not be re-admitted except by vote of the Faculty.

6. Every student shall be answerable for all vicious, scandalous and immoral conduct during the several vacations, the same as in term-time.

7. Monthly reports of the standing and conduct of each student are made to his parents or guardian by the President; hence, if a student falls behind in his studies, or becomes disorderly, it is quickly known to those most interested.

FREE SCHOLARSHIPS.

The Trustees of the University have established the following Free Scholarships:

Four Scientific and four Classical Scholarships (one of each annually) to the Canton Union School, Canton, and to the Clinton Liberal Institute, Fort Plain.

Four Classical Scholarships (one annually) to the High School, Massena, to the Union School, Waddington, and to the Ogdensburg Academy, Ogdensburg.

Two Scientific and two Classical Scholarships (one annually) to the High School, Hermon, to Lawrenceville Academy, Lawrenceville, and to the Gouverneur Wesleyan Seminary, Gouverneur.

Four Scientific Scholarships (one annually) to the High Schools of Madrid, Colton, Richville, Heuvelton, Russell and Morley.

These Scholarships are granted and established under the following conditions and regulations:

1. They may be granted to students of either sex; and shall be held to cancel all claims for tuition.

2. The candidate for a Scholarship shall declare his purpose to pursue a full course of four years in the University. In case any student shall, for any reason, abandon the course without completing it, unless excused by the President, he shall pay tuition in full for all the time he has attended the University under such Scholarship.

3. The candidate shall present to the President evidence of good moral character; shall be in good health, and pledged to study the laws of health and observe them; and shall not be less than fifteen years old.

4. A willful violation of the Rules and Regulations of the University; the use of intoxicating liquors as a beverage; or any course of conduct unbecoming a young man or a young woman as a member of the University, shall be deemed by the President a sufficient reason to cancel said Scholarship. In case any student holding one of these Scholarships shall fail to maintain the requisite standing for continuance in the University, or from sickness, or any other cause, is absent for two successive terms from the regular exercises of his class, the Scholarship may be declared vacant by the President.

5. The Boards of Education of the several schools, to whom all applications should be made, shall have sole power to nominate candidates for these Scholarships. These Boards are restricted, however, to the nomination of such as are actually members of the schools which they represent. If two or more applications be made for the same scholarship it is recommended by the University that the nomination be made upon the result of a competitive examination, all other things being equal.

6. The candidate, upon receiving a nomination for a Free Scholarship from such Board, shall be required to pass, *without conditions*, an examination upon those branches required for entrance (see page 14) before becoming entitled to its provisions.

FISHER MEMORIAL HALL.

Particular attention is directed to the fact that the new building, erected for the special and exclusive use of the Theological School, and designed as a permanent and suitable memorial of its first President, the late Ebenezer Fisher, D. D., is completed, and was dedicated at the last Commencement, June, 1883. It is built of the Canton marble, a fine French gray stone, is trimmed with the Potsdam sandstone, and is constructed in the most solid and thorough manner throughout. In style it is Gothic. It contains recitation rooms, office, and society rooms, but its principal feature is the Chapel, which is designed both without and within to bring into prominence the memorial character of the building. With the completion of this Hall, the Canton Theological School enjoys facilities of every kind which place it on a level with the first institutions of its class in the country.

INFORMATION.

FOUNDATION.

This school was established in April, 1858, through efforts which originated in the New York Universalist Educational Society, and is sustained by the Universalist Denomination of Christians.

REQUISITES FOR ADMISSION.

Applicants for admission must bring satisfactory testimonials as to their moral and religious character; if they are members of any church, they should bring certificates to that effect. They must also well sustain examination in the preparatory branches of an English education. They must be believers in the Holy Scriptures, must accept the Winchester Confession of Faith, and must have a fixed determination to devote their lives to the Christian ministry.

DIPLOMAS.

The regular course of instruction extends through three years. Those only will be considered graduates of the School and entitled to its diploma, who shall have completed the three years' course of study herein laid down. Those who desire, may pursue a partial course, and will be entitled to a certificate stating the extent of the same.

DEGREES.

A Post Graduate Course has been established, to be completed in one year. The degree of *Bachelor of Divinity* is conferred on those completing this course, or its equivalent.

HERRING LIBRARY.

This library was founded by the munificence of the late Silas C. Herring, of New York. It contains a valuable and well selected collection of over 8,000 volumes, composed in part of the libraries of the late Prof. Dr. K. A. Credner, of the University of Giessen, and of the late Rev. S. C. Loveland. The ample advantages thus furnished to students will be much increased by constant and liberal additions to the Library. Private libraries, containing upwards of 4,000 volumes, are also open for the use of students.

READING ROOM.

The Reading Room, as at present conducted, is under the joint management and is for the joint use of the two departments. An annual fee of $1.00 from each student is required by the Board of Trustees, for its support, and as the condition of enjoying all its privileges. In addition to a large list of secular publications, the Reading Room keeps on file the following denominational and religious publications:

Christian Leader, *Christian Statesman*, *Signs of the Times*, *Christian Register*, *Gospel Banner*, *Universalist*, *New Englander*, *Christian Union*, *Advance*, *Universalist Quarterly*, *Unitarian Review*, *Bibliotheca Sacra*, *Sword and Trowel*, *Sunday School Helper*.

GENERAL EXERCISES.

Lessons in Rhetoric and Elocution are given on Monday afternoon of each week.

After the study of Homiletics is commenced, in the second year, sermons are preached and criticised on Wednesday of each week during the remainder of the course.

A critical and exegetical study of the Greek Testament is pursued during the Second and Third years, under the direction of the Professor of Biblical Languages.

Conference meetings, conducted in succession by the Professors and by the Students of the different classes, are held every Sunday afternoon in the Chapel.

Examinations, either oral or written, are a regular order at the close of each term.

TERMS AND VACATIONS.

The Academic Year commences on the fourth Wednesday in September, and ends on the last Thursday in June.

There are two vacations; one of twenty days at the close of the first term; the next of eleven weeks next preceding the commencement of the Academic year.

EXPENSES.

No charge is made for tuition, or for the use of the Library.

Good Board is furnished in the institution at $3.00 per week, washing included.

Students who board in the institution are expected to furnish their own bedding and the furniture of their rooms.

Board may also be obtained in private families at favorable rates.

The necessary expenditure for each student is, at the minimum, about $180 a year.

The General Convention grants aid by means of loans to students desiring to avail themselves of it. They can add to their resources by preaching during vacations, or at other times when deemed advisable by the Faculty.

THE LESTER TAYLOR FUND.

The foundation of a fund for the benefit of students who are unable to defray the expenses of their own education (in this School) for the Universalist Ministry, has been laid by the thoughtful generosity of the late Lester Taylor, of Fly Creek, N. Y. It is known as the "Lester Taylor Fund," and, although the income is as yet small, there is good promise of its increase at an early day to a sum sufficient to yield considerable aid. To the extent to which the increase of this Fund can be availed of, students will be saved the necessity of incurring debt by loans from other sources.

THE SARAH A. GAGE FUND.

The Theological School is receiving this year the first income from the Fund left by the late Miss Sarah A. Gage, of Hudson, for the "support and education" of students for the ministry of the Universalist Church. To the extent to which this Fund is available it will hereafter be used for the benefit of those students who come within the conditions of the bequest.

MISCELLANEOUS.

As a general answer to many inquiries it may be stated here that, (1) The Canton Theological School is located at the county seat of St. Lawrence county, in Northern New York, on the Rome, Watertown & Ogdensburg R. R.; (2) That the University buildings are within the corporation, near the railway station, and conveniently situated for those who desire to board in the village; (3) That one of the oldest and best Universalist parishes in the State is here, while the Universalist element is strong in the whole region; (4) That the opportunties for undistracted study are equal to the best; and that in the item of expense, a student could scarcely expect to be more favorably conditioned. It may be further stated that Canton has the reputation of being one of the healthiest places in the country—a reputation which it has amply sustained in the experience of twenty-five classes of students.

The study of French and German—the former under a native teacher—may be pursued, free of charge, with classes in the Collegiate Department, by all Theological students desiring to do so.

INFORMATION.

ADMISSION.

For admission to the Freshman Class of the Classical Course, an examination must be well sustained in the following studies, or *their equivalents:*

Latin—Six books of the Æneid; three books of Cæsar's Commentaries; five Orations of Cicero; Allen & Greenough's or Harkness' Grammar, including Prosody; Allen's or Harkness' Introduction to Latin Composition; Liddell's History of Rome, to Book IV.

Greek—Goodwin's Greek Reader, or two books of the Iliad, with three books of Xenophon's Anabasis; Goodwin's or Hadley's Greek Grammar, including Prosody; writing Greek, with accents; Smith's Greek History, to Book III.

Mathematics—Arithmetic, with Metric System; Algebra, to Equations of the Second Degree; the first four books of Loomis's Geometry.

Geography, History, Etc.—Modern Geography; History of the United States; English Grammar.

☞ Candidates for admission to the Freshman Class of the Scientific Course are examined as above, with the omission of Latin and Greek.

The regular examination of candidates for admission will be held at the University on the Monday and Tuesday preceding the Annual Commencement, and on the Tuesday and Wednesday of the first week of the Fall Term of the College Year.

Special examinations will be held in October and June of each year, on application of the Board of Education, *at any school to which a Free Scholarship has been given.* At such times examination will be made of any applicant intending to pursue a regular course at the University on the *whole* or *any part* of the requirements for admission; and a certificate will be issued on such branches as may be successfully passed. This certificate, if presented within eighteen months, will entitle the holder to entrance without further examination on the branches certified to.

Whoever offers himself for examination thereby expresses his intention, if admitted, to enter the class for which he is examined.

Candidates for advanced standing will be examined in the studies previously pursued by the classes which they propose to enter. Candidates from other colleges will be required to present certificates of dismission in good standing.

TERMS.

The First Term of the regular course of study begins on the Wednesday next preceding the fourth Sunday in August, and closes the day before Christmas.

The Second Term begins on the first Wednesday in February and continues until Commencement day, the Wednesday next preceding July 4th, unless both occur the same week, in which case Commencement will be on the Wednesday of the next preceding week.

TERM EXAMINATIONS.

A thorough examination of all the classes will be held at the close of each term.

PUBLIC WORSHIP.

Devotional exercises, consisting of prayer with reading of the Scriptures and singing, are conducted every morning in the College Chapel; and all students are required to attend.

Students are required to attend regularly on Sunday the church of their choice.

ABSENCES.

Students wishing to teach are allowed to be absent not more than ten weeks in any one year, on the condition of passing satisfactory examinations before the Faculty on all the subjects read by the class during their absence.

RHETORICAL EXERCISES.

One afternoon of each week during the College Year is set apart for Rhetorical Exercises, at which all students, at frequent and stated periods, are required to present orations, translations, essays or readings. In addition to these public exercises, frequent private rehearsals and careful personal drill are given to each student.

LECTURES.

Lectures were given last year by Prof. J. S. Lee, D. D., Prof. Henry Priest, Prof. H. E. Seaver, Prof. J. H. Chapin, Ph. D., and Rev. Wm. A. Rich.

These Lectures are delivered in the College Chapel, and are open to all students of the University, and to such others as may choose to attend.

A similar course will be given during the present year.

PRIZES.

RUSSELL PRIZES.

A prize of Twenty Dollars has this year been offered by the Hon. Leslie W. Russell, ex-Attorney-General, to the member of the Freshman Class showing the greatest excellence in oratory; also, a second prize of Ten Dollars to the member of the same class standing next in proficiency.

RICH PRIZES.

Prizes are this year offered to members of the Sophomore Class by the Rev. Wm. A. Rich, of Canton, as follows: For excellence in oratory, a first prize of Fifteen Dollars; a second prize of Ten Dollars; a third prize of Five Dollars. To be publicly competed for.

PARKER PRIZES.

A prize of Fifteen Dollars has this year been offered by the Hon. Abram X. Parker, of Potsdam, for the best original English oration or essay by a member of the Junior Class.

Also, a prize of the same amount for the best delivery of an original English oration by a member of the Junior Class.

DETURS.

Prizes in money and books are given for special excellence in various branches of the College work.

MICROSCOPY.

Students in Botany, Zoology, and Physiology are taught the use of the dissecting and the compound microscopes, and advantages are offered for practical work with the latter instrument.

DRAUGHTING.

Special instructions will be given in Freehand Drawing and Draughting, including the construction of the various kinds of geometrical and topographical drawings, the design and construction of machinery and bridges, and the preparation of architectural plans. Particular attention will be given to draughting in connection with surveying and other kindred subjects.

THE SCIENTIFIC COURSE.

Students in this course have the option of pursuing any two of the three languages, French, German, and Latin. The Faculty recommend that students in the Scientific course elect Latin as one of their languages.

DEGREES.

Graduates in the Classical Course receive the degree of Bachelor of Arts.

Graduates in the Scientific Course receive the degree of Bachelor of Science.

The degree of Master of Arts, or Master of Science, will be conferred on such graduates, of not less than three years standing, as shall have pursued, to the acceptance of the Faculty, subsequent to graduation, professional, literary, philosophical or scientific studies. But after the commencement of 1886, these degrees will be conferred, in course, only in accordance with the following programme:

ADVANCED DEGREES.

Bachelors of Arts of three years standing may take the degree of *Master of Arts*, and *Bachelors of Science* of three years standing may take the degree of *Master of Science* on passing an examination on some literary or scientific course of study to the satisfaction of the Faculty. As it is designed that these degrees shall represent real and solid attainments in scholarship, the Faculty, whenever it may be deemed advisable, will call to their assistance Professors of other Colleges and other persons of acknowledged proficiency in the subjects involved.

Specific courses leading to the above degrees have been arranged by the Faculty in the following subjects: Latin, Greek, Modern Languages, English Literature, Philosophy, Political Science, Mathematics and Astronomy, Physics and Chemistry, Natural History and Botany, History. A pamphlet containing a detailed statement of these courses will be sent to persons interested, on application.

Candidates who are examined may also present dissertations on topics in the field of study which they have specially investigated.

Resident graduates who have completed an adequate course of study may be admitted to an examination for a second degree before the expiration of three years, if the Faculty deem it proper.

Masters of Arts and *Masters of Science* may be examined for the degrees of *Doctor of Philosophy* and *Doctor of Science;* but such degrees will be conferred only after satisfactory proof of the faithful and successful prosecution of courses of study fully equal in extent and quality to those required for similar honors in the best Universities.

Notice of application for examination must be given to the President at least two months before Commencement. The fee for the Diploma of the second degree is Ten Dollars, and of subsequent degrees Thirty Dollars and the necessary expenses of examination, to be paid to the Treasurer by the twentieth day of

June next preceding the annual meeting of the Board of Trustees at which action is to be taken.

LIBRARY.

All students in good standing are entitled to the privileges of Herring Library, which contains nearly nine thousand volumes, comprising all classes of subjects.

A new card catalogue is in process of preparation in accordance with the latest and most approved methods. This work is already well advanced and will be completed at the earliest practicable date.

READING-ROOM.

A Reading-Room, well furnished with the necessary tables, racks, etc., and supported and controlled jointly by the students of *both* Departments of the University, is open at all hours of the day.

The leading American and English magazines and reviews, together with most of the popular religious, scientific, and secular periodicals and newspapers, are kept constantly on file.

By authority of the Executive Committee, each student of the University is required to pay, on or before October 1st, each year, a fee of One Dollar for the support of the Reading-Room, unless excused therefrom by the Presidents of the Departments.

EXPENSES.

TUITION.

The annual tuition fee for each student is thirty dollars. No reduction for absence, except in case of prolonged sickness.

BOARD.

Board can be had of the Steward at $3.00 per week, washing included; or, if preferred, in private families at prices ranging from $2.00 to $4.00 per week.

BOOKS.

By special arrangements with publishers, books can be obtained at the University at cost for cash.

COLLEGE BILLS.

All College bills will be made out by the Treasurer; each bill will contain one-half the annual charges. Unless other and satisfactory arrangements shall be made with the Treasurer, the first bill will be delivered December 15th, and must be paid on or before February 10th; the second bill will be delivered one week before Commencement, and must be paid on or before September 15th; but the second bill of the Senior year must be paid at least one day before Commencement. Students who leave College before graduating must pay in full all College bills at the time of leaving.

DISCIPLINE.

The President, in accordance with the By-Laws and Resolutions of the Board of Trustees, shall supervise and direct the course of instruction and the discipline of the College.

It is earnestly desired by the government of the University, that the students may be influenced to good conduct and diligence in study by higher motives than fear of punishment. The sense of duty and honor, and the generous feelings which belong to young men and women engaged in honorable pursuits, are appealed to as the best regulators of conduct. The following rules, however, have been enacted for the guidance of students:

1. Every student shall be subject to the laws and government of the College, and show in speech and behavior all proper respect and obedience to the Faculty. Any transgression of this law may be punished, even to expulsion, as the nature and aggravation of the offense may demand.

2. If any student shall injure the person, property or premises of a fellow student, or of any other person within the town of Canton; or deface, or in any way injure the College walls, furniture, or buildings, he shall make reparation therefor, according to the nature of the offense or injury, and also be subject to such punishment as the case may require.

3. Every student of the University, during the hours of study, shall abstain from hallooing, singing, loud talking, playing on any musical instrument, and from making any disorderly noises in or around the College buildings.

4. No student shall go out of town, so as to be absent from any College exercises, without leave first obtained of the President or of some member of the Faculty.

5. When any member of the Faculty shall be convinced that a student is guilty of frequenting bar-rooms, billiard-rooms or saloons; or of disorderly behavior; or of keeping improper company; or of idleness, or profane language, or of profaning the Sabbath; or of the habitual use of intoxicating drinks; or that he is frequently absent from his room late at night or during study hours without sufficient reason; he shall admonish him of his behavior; and if he continues unreformed, it shall be reported to the Faculty, who shall admonish him again, and make known his case to his parents or guardian; and if he still persists in such course he shall be expelled, and shall not be re-admitted except by vote of the Faculty.

6. Every student shall be answerable for all vicious, scandalous and immoral conduct during the several vacations, the same as in term-time.

7. Monthly reports of the standing and conduct of each student are made to his parents or guardian by the President; hence, if a student falls behind in his studies, or becomes disorderly, it is quickly known to those most interested.

FREE SCHOLARSHIPS.

The Trustees of the University have established the following Free Scholarships:

Four Scientific and four Classical Scholarships (one of each annually) to the Canton Union School, Canton, and to the Clinton Liberal Institute, Fort Plain.

Four Classical Scholarships (one annually) to the High School, Massena, to the Union School, Waddington, and to the Ogdensburg Academy, Ogdensburg.

Two Scientific and two Classical Scholarships (one annually) to the High School, Hermon, to Lawrenceville Academy, Lawrenceville, and to the Gouverneur Wesleyan Seminary, Gouverneur.

Four Scientific Scholarships (one annually) to the High Schools of Madrid, Colton, Richville, Heuvelton, Russell and Morley.

These Scholarships are granted and established under the following conditions and regulations:

1. They may be granted to students of either sex; and shall be held to cancel all claims for tuition.

2. The candidate for a Scholarship shall declare his purpose to pursue a full course of four years in the University. In case any student shall, for any reason, abandon the course without completing it, unless excused by the President, he shall pay tuition in full for all the time he has attended the University under such Scholarship.

3. The candidate shall present to the President evidence of good moral character; shall be in good health, and pledged to study the laws of health and observe them; and shall not be less than fifteen years old.

4. A willful violation of the Rules and Regulations of the University; the use of intoxicating liquors as a beverage; or any course of conduct unbecoming a young man or a young woman as a member of the University, shall be deemed by the President a sufficient reason to cancel said Scholarship. In case any student holding one of these Scholarships shall fail to maintain the requisite standing for continuance in the University, or from sickness or any other cause is absent for two successive terms from the regular exercises of his class, the Scholarship may be declared vacant by the President.

5. The Boards of Education of the several schools, (to whom all applications should be made,) shall have sole power to nominate candidates for these Scholarships. These Boards are restricted, however, to the nomination of such as are actually members of the schools which they represent. If two or more applications be made for the same scholarship it is recommended by the University that the nomination be made upon the result of a competitive examination.

6. The candidate, upon receiving a nomination for a Free Scholarship from such Board, must pass, *without conditions*, an examination upon those branches required for entrance (see page 14), before becoming entitled to its provisions.

FISHER MEMORIAL HALL.

Particular attention is directed to the fact that the new building, erected for the special and exclusive use of the Theological School, and designed as a permanent and suitable memorial of its first President, the late Ebenezer Fisher, D. D., is completed, and was dedicated at the Commencement, June, 1883. It is built of the Canton marble, a fine French gray granulated lime stone, is trimmed with the Potsdam sandstone, and is constructed in the most solid and thorough manner throughout. In style it is Gothic. It contains recitation rooms, office, and society rooms, but its principal feature is the Chapel, which is designed both without and within to bring into prominence the memorial character of the building. With the completion of this Hall, the Canton Theological School enjoys facilities of every kind which place it on a level with the first institutions of its class in the country.

INFORMATION.

FOUNDATION.

This school was established in April, 1858, through efforts which originated in the New York Universalist Educational Society, and is sustained by the Universalist Denomination of Christians. It was the first school of Theology established by the Denomination, and it numbers 150 active ministers among its graduates.

REQUISITES FOR ADMISSION.

Applicants for admission must bring satisfactory testimonials as to their moral and religious character; if they are members of any church, they should bring certificates to that effect. They must also well sustain examination in the preparatory branches of an English education. They must be believers in the Holy Scriptures, must accept the Winchester Confession of Faith, and must have a fixed determination to devote their lives to the Christian ministry.

DIPLOMAS.

The regular course of instruction extends through three years. Those only will be considered graduates of the School and entitled to its diploma, who shall have completed the three years' course of study herein laid down. Those who desire, may pursue a partial course, and will be entitled to a certificate stating the extent of the same.

DEGREES.

A Post Graduate Course has been established, to be completed in one year. The degree of *Bachelor of Divinity* is conferred on those completing this course, or its equivalent.

HERRING LIBRARY.

This library was founded by the munificence of the late Silas C. Herring, of New York. It contains a valuable and well selected collection of over 8,000 volumes, composed in part of the libraries of the late Prof. Dr. K. A. Credner, of the University of Giessen, and of the late Rev. S. C. Loveland. The ample advantages thus furnished to students will be much increased by constant and liberal additions to the Library. Private libraries, containing upwards of 4,000 volumes, are also open for the use of students.

READING ROOM.

The Reading Room, as at present conducted, is under the joint management, and is for the joint use of the two departments. An annual fee of $1.00 from each student is required by the Board of Trustees, for its support, and as the condition of enjoying all its privileges. In addition to a large list of secular publications, the Reading room keeps on file the following denominational and religious publications:

Christian Leader, *Christian Statesman*, *Signs of the Times*, *Christian Register*, *Gospel Banner*, *Universalist*, *New Englander*, *Christian Union*, *Advance*, *Universalist Quarterly*, *Unitarian Review*, *Bibliotheca Sacra*, *Sword and Trowel*, *Sunday School Helper*, *Andover Review*.

GENERAL EXERCISES.

Lessons in Rhetoric and Elocution are given on Monday afternoon of each week.

After the study of Homiletics is commenced, in the second year, sermons are preached and criticised on Wednesday of each week during the remainder of the course.

A critical and exegetical study of the Greek Testament is pursued during the Second and Third years, under the direction of the Professor of Biblical Languages.

Conference meetings, conducted in succession by the Professors and by the Students of the different classes, are held every Sunday afternoon in the Chapel.

Examinations, either oral or written, are a regular order at the close of each term.

TERMS AND VACATIONS.

The Academic Year commences on the fourth Wednesday in September, and ends on the last Thursday in June.

There are two vacations; one of three weeks at the close of the first term; the next of eleven weeks next preceding the commencement of the Academic year.

EXPENSES.

No charge is made for tuition, or for the use of the Library.

Good board is furnished in the institution at $3.00 per week, washing included.

Students who board in the institution are expected to furnish their own bedding and the furniture of their rooms.

Board may also be obtained in private families at favorable rates.

The necessary expenditure for each student is, at the minimum, about $180 a year.

The General Convention grants aid by means of loans to students desiring to avail themselves of it. They can add to their resources by preaching during vacations, or at other times when deemed advisable by the Faculty.

THE LESTER TAYLOR FUND.

The foundation of a fund for the benefit of students who are unable to defray the expenses of their own education (in this School) for the Universalist Ministry, has been laid by the thoughtful generosity of the late Lester Taylor, of Fly Creek, N. Y. It is known as the "Lester Taylor Fund," and, although the income is as yet small, there is good promise of its increase at an early day to a sum sufficient to yield considerable aid. To the extent to which the increase of this fund can be availed of, students will be saved the necessity of incurring debt by loans from other sources.

THE SARAH A. GAGE FUND.

The Theological School is receiving this year the first full income from the Fund left by the late Miss Sarah A. Gage, of Hudson, for the "support and education" of students for the ministry of the Universalist Church. To the extent to which this Fund is available it will hereafter be used for the benefit of those students who come within the conditions of the bequest.

MISCELLANEOUS.

As a general answer to many inquiries it may be stated here that, (1) The Canton Theological School is located at the county seat of St. Lawrence county, in Northern New York, on the Rome, Watertown & Ogdensburg R. R.; (2) That the University buildings are within the corporation, near the railway station, and conveniently situated for those who desire to board in the village; (3) That one of the oldest and best Universalist parishes in the State is here, while the Universalist element is strong in the whole region; (4) That the opportunities for undistracted study are equal to the best; and that in the item of expense, a student could scarcely expect to be more favorably conditioned. It may be further stated that Canton has the reputation of being one of the healthiest places in the country—a reputation which it has amply sustained in the experience of twenty-six classes of students.

The study of French and German—the former under a native teacher—may be pursued, free of charge, with classes in the College Department, by all Theological students desiring to do so.

INFORMATION.

ADMISSION.

For admission to the Freshman Class of the Classical Course, an examination must be well sustained in the following studies, or *their equivalents:*

Latin—Six books of the Æneid; three books of Cæsar's Commentaries; five Orations of Cicero; Allen & Greenough's or Harkness's Grammar, including Prosody; Allen's or Harkness's Introduction to Latin Composition; Liddell's History of Rome, to Book IV.

Greek—Goodwin's Greek Reader, or two books of the Iliad, with three books of Xenophon's Anabasis; Goodwin's or Hadley's Greek Grammar, including Prosody; Writing Greek, with accents; Smith's Greek History, to Book III.

Mathematics—Arithmetic, with Metric System; Algebra, to Equations of the Second Degree; the first four books of Loomis's Geometry.

Geography, History, Etc.—Modern Geography; History of the United States; English Grammar.

Candidates for admission to the Freshman Class of the Scientific Course are examined as above, with the omission of Latin and Greek.

The regular examination of candidates for admission will be held at the University on the Monday and Tuesday preceding the Annual Commencement, and on the Tuesday and Wednesday of the first week of the Fall Term of the College Year.

Special examinations will be held in October and June of each year, on application of the Board of Education, *at any school to which a Free Scholarship has been given.* At such times examination will be made of any applicant intending to pursue a regular course at the University on the *whole* or *any part* of the requirements for admission; and a certificate will be issued on such branches as may be successfully passed. This certificate, if presented within eighteen months, will entitle the holder to entrance without further examination on the branches certified to.

Whoever offers himself for examination thereby expresses his intention, if admitted, to enter the class for which he is examined.

Candidates for advanced standing will be examined in the studies previously pursued by the classes which they propose to enter. Candidates from other colleges will be required to present certificates of dismission in good standing.

TERM EXAMINATIONS.

A thorough examination of all the classes will be held at the close of each term.

TERMS.

The First Term of the regular course of study begins on the Wednesday next preceding the fifth Sunday in August, and closes the day before Christmas.

The Second Term begins on the first Wednesday in February and continues until Commencement day, the Wednesday next preceding July 4th, unless both occur the same week, in which case Commencement will be on the Wednesday of the next preceding week.

PUBLIC WORSHIP.

Devotional exercises, consisting of prayer with reading of the Scriptures and singing, are conducted every morning in the College Chapel; and all students are required to attend.

Students are required to attend regularly on Sunday the churches of their choice.

ABSENCES.

Students wishing to teach are allowed to be absent not more than ten weeks in any one year, on the condition of passing satisfactory examinations before the Faculty on all the subjects read by the class during their absence.

RHETORICAL EXERCISES.

One afternoon of each week during the College Year is set apart for Rhetorical Exercises, at which all students, at frequent and stated periods, are required to present orations, translations, essays or readings. In addition to these public exercises, frequent private rehearsals and careful personal drill are given to each student.

LECTURES AND EVENING READINGS.

During the year lectures upon special themes are delivered, and a series of readings, consisting of selections from the ancient and modern classics, with rapid illustration and commentary, are given. These lectures and readings are voluntary and are open to the public.

Lectures were given last year as follows:

Terence and the Andria,.....Prof. Bowles.
The Conspiracy of Aaron Burr,..Ledyard P. Hale, M. S., LL. B.
The Needs of the Hour,.....Prof. Warren Mann, A. M.
The Metric System,.....Prof. Priest.
Histology,.....John Nelson Bassett, A. M., M. D.
Uniformity of Text Books in the Common Schools,..Pres. Gaines.

PRIZES.

RUSSELL PRIZES.

A prize of Twenty Dollars has this year been offered by the Hon. Leslie W. Russell, ex-Attorney-General, to the member of the Freshman Class showing the greatest excellence in oratory; also, a second prize of Ten Dollars to the member of the same class standing next in proficiency.

RICH PRIZES.

Prizes are this year offered to members of the Sophomore Class by the Rev. William A. Rich, of Canton, as follows: For excellence in oratory, a first prize of Fifteen Dollars; a second prize of Ten Dollars; a third prize of Five Dollars. To be publicly competed for.

PARKER PRIZES.

A prize of Fifteen Dollars has this year been offered by the Hon. Abram X. Parker, of Potsdam, for the best original English oration or essay by a member of the Junior Class.

Also, a prize of the same amount for the best delivery of an original English oration by a member of the Junior Class.

DETURS.

Prizes in money and books are given for special excellence in various branches of the College work.

MICROSCOPY.

Students in Botany, Zoölogy and Physiology are taught the use of the dissecting and the compound microscopes, and advantages are offered for practical work with the latter instrument.

DRAUGHTING.

Special instructions will be given in Freehand Drawing and Draughting, including the construction of the various kinds of geometrical and topographical drawings, the design and construction of machinery and bridges, and the preparation of architectural plans. Particular attention will be given to draughting in connection with surveying and other kindred subjects.

SCIENTIFIC COLLECTIONS.

The University has valuable geological and mineralogical collections, which are used in illustrating the instruction and lectures in those branches of study. These collections are for the present kept in Herring Library Hall.

LIBRARY.

All students in good standing are entitled to the privileges of the University Library, which contains upwards of nine thousand volumes, comprising all classes of subjects, and several thousand pamphlets.

The work upon a new card catalogue, which is in process of preparation in accordance with the latest and most approved methods, is being advanced as rapidly as possible.

The library is placed in Herring Library Hall, a substantial fire-proof building, with a capacity of 60,000 volumes, erected by the late Silas C. Herring, Esq., of New York.

The library has a fund of five hundred dollars, the gift of a friend who wishes for the present to remain unknown.

The friends of the University are earnestly desired to consider the wants of this department and to provide for its more adequate support. A fund of ten thousand dollars is needed to increase its usefulness.

READING ROOM.

A Reading Room, well furnished with the necessary tables, racks, etc., and supported and controlled jointly by the students of *both* Departments of the University, is open at all hours of the day.

The leading American and English magazines and reviews, together with most of the popular religious, scientific and secular periodicals and newspapers, are kept constantly on file.

By authority of the Executive Committee, each student of the University is required to pay, on or before October 1st, in each year, a fee of One Dollar for the support of the Reading Room, unless excused therefrom by the Presidents of the Schools.

DEGREES.

Graduates in the Classical Course receive the degree of Bachelor of Arts.

Graduates in the Scientific Course receive the degree of Bachelor of Science.

The degree of Master of Arts, or Master of Science, will be conferred on such graduates, of not less than three years standing, as shall have pursued, to the acceptance of the Faculty, subsequent to graduation, professional, literary, philosophical or scientific studies. But after the Commencement of 1886, these degrees will be conferred, in course, only in accordance with the following programme:

ADVANCED DEGREES.

Bachelors of Arts of three years standing may take the degree

of *Master of Arts*, and *Bachelors of Science* of three years standing may take the degree of *Master of Science* on passing an examination on some literary or scientific course of study to the satisfaction of the Faculty. As it is designed that these degrees shall represent real and solid attainments in scholarship, the Faculty, whenever it may be deemed advisable, will call to their assistance Professors of other Colleges and other persons of acknowledged proficiency in the subjects involved.

The following are adequate courses of study to be pursued by candidates for the second degree:

LATIN.

1. The whole of Virgil and Horace, together with Schmidt's Rhythmic and Metric (translated by Prof. J. W. White).

2. The whole of Tacitus, together with Merivale.

3. Cicero's Tusculan Disputations (five books), De Natura Deorum and De Officiis, together with the History of Ancient Philosophy.

4. Twelve comedies of Plautus and Terence, together with Mommsen's History of Rome.

5. Latin Literature, with translations at sight from any of the leading authors, and an original thesis in Latin on some topic connected with the subject.

GREEK.

6. The Iliad and the Odysscy entire, together with Comparative Mythology and Antiquities.

7. Ten tragedies from Aeschylus, Sophocles and Euripides, together with Schmidt's Rhythmic and Metric.

8. An equivalent amount from the Greek Lyric, Didactic, Comic and Bucolic Poets.

9. Five hundred pages of Plato, together with the study of his Philosophy and that of Socrates.

10. An equivalent amount from any of the Attic Orators, together with the History of the Period involved.

11. Thucydides entire, with Grote and Curtius on the Peloponnesian War.

12. Greek Literature, with translations at sight from any of the leading authors, and an original thesis in Greek upon some topic connected with the subject.

MODERN LANGUAGES.

13. Courses similar to 5 and 12 may be offered in any modern language other than English. A high degree of proficiency will be required.

ENGLISH LITERATURE.

14. Green's Short History of the English People, Arnold's or Welch's Manual of English Literature, Marsh's Lectures on the English Language and Literature, Lanier's Science of English Verse, and a critical reading of the following: Ward's English Poets entire, or an equivalent amount of standard poetry; fifteen standard plays, at least six of which shall be from Shakspere; Bacon's Essays, and an equal amount from the works of Addison, Burke, Macaulay, Emerson, Lowell and five other standard prose writers (not novelists); and fifteen standard novels by first-rate authors not now living.

For any part of this course a *sound equivalent*, to be judged by the Faculty, may be substituted. But prose fiction, to a greater extent than above stated, will not be admitted; and in all cases a thorough knowledge and good critical appreciation will be required.

PHILOSOPHY.

15. Mill's System of Logic, Hamilton's or Bowen's Logic, Fowler's Inductive Logic, Ueberweg's History of Philosophy, Hamilton's Metaphysics, Porter's The Human Intellect, Jowett's Plato and Bowen's Modern Philosophy.

Bascom's Ethics, McCosh's The Emotions, Jouffroy's Introduction to Ethics and Sidgwick's Methods of Ethics.

POLITICAL SCIENCE.

16. Smith's Wealth of Nations, Mill's Political Economy, F. A. Walker's Political Economy, F. A. Walker's The Wages Question, Bowen's or Cary's Political Economy, Roscher-Lalor's Political Economy, Cossa's or Blanqui's History of Political Economy.

Amos's Science of Law, Curtis's and Von Holst's Constitutional Histories of the the United States, The History of the English Constitution (Stubbs, Hallam and May), Woolsey's Political Science, Lieber's Political Ethics and Wilson's Congressional Government.

Courses 15 and 16 may be combined under the direction of the President.

MATHEMATICS AND ASTRONOMY.

17. General Geometry and Calculus, Peirce and Olney; Analytical Mechanics, Bartlett and Tait; Theoretical and Practical Astronomy, Watson, Chauvenet, Newcomb and Holden; supplemented by a careful reading of the papers published by the various societies devoted to Astronomy.

PHYSICS AND CHEMISTRY.

18. General Physics, Deschanel, Ganot; Electricity and Magnetism, Maxwell, Gordon; Modern Applications of Electricity, Hospitalier; Heat, Maxwell, Tyndall.

19. Eliot and Storer's Manual of Inorganic Chemistry, Bloxam's Laboratory Teaching; Qualitative Analysis, Douglass and Prescott, or Fresenius; Clowes's Elementary Treatise; the Article on Chemistry in the ninth edition of the Encyclopædia Brittanica; Roscoe and Schorlemmer's Treatise on Chemistry.

NATURAL HISTORY.

20. Huxley's Biology; Beale's Protoplasm; Spencer's Principles of Biology; Zoology, Packard; Practical Work, Huxley and Martin, Wilder and Gage.

21. Botany; Gray's Series, Bessey, Sachs.

22. Geology, Lyell, Geikie, Dana, LeConte; Mineralogy, Dana; Collections and Classifications.

HISTORY.

23. English History; Freeman's History of the Norman Conquest, Green's Larger History of England, and Stubb's, Hallam's and May's Constitutional Histories.

24. American History; Bancroft, Hildreth, Schouler, Parkman; Frothingham's Rise of the Republic, Curtis's History of the Constitution, Von Holst's Constitutional History of the United States, The Federalist.

Candidates who are examined are expected to present dissertations on topics in the fields of study which they have specially investigated.

Resident graduates who have completed an adequate course of study may be admitted to an examination for a second degree before the expiration of three years if the Faculty deem it proper.

Masters of Arts and *Masters of Science* may be examined for the degrees of *Doctor of Philosophy* and *Doctor of Science:* but

such degrees will be conferred only after satisfactory proof of the faithful and successful prosecution of courses of study fully equal in extent and quality to those required for similar honors in the best Universities.

Notice of application for examination must be given to the President at least two months before Commencement. The fee for the Diploma of the second degree is ten dollars, and of subsequent degrees thirty dollars, and the necessary expenses of examination, to be paid to the Treasurer by the twentieth day of June next preceding the annual meeting of the Board of Trustees at which action is to be taken.

EXPENSES.

TUITION.

The annual tuition fee for each student is thirty dollars. No reduction for absence, except in case of prolonged sickness.

BOARD.

Board can be had of the Steward at $3.00 per week, washing included; or, if preferred, in private families at prices ranging from $2.00 to $4.00 per week.

BOOKS.

By special arrangements with publishers, books can be obtained at the University at cost for cash.

COLLEGE BILLS.

All College bills will be made out by the Treasurer; each bill will contain one-half the annual charges. Unless other and satisfactory arrangements shall be made with the Treasurer, the first bill will be delivered December 15th, and must be paid on or before February 10th; the second bill will be delivered one week before Commencement, and must be paid on or before September 15th; but the second bill of the Senior year must be paid at least one day before Commencement. Students who leave College before graduating must pay in full all College bills at the time of leaving.

DISCIPLINE.

The President, in accordance with the By-Laws and Resolutions of the Board of Trustees, shall supervise and direct the course of instruction and the discipline of the College.

It is earnestly desired by the government of the University, that the students may be influenced to good conduct and diligence in study, by higher motives than fear of punishment. The sense of duty and honor, and the generous feelings which belong to young men and women engaged in honorable pursuits are

FORM OF BEQUEST.

The following form of bequest has been recommended by the legal adviser of the University.

I give and bequeath to The St. Lawrence University, situated in Canton, New York, the sum of dollars, for the use of the College of Letters and Science (or the Theological School, or the Library) of said University. This sum is to form a fund to be known as the Fund, the income of which shall be applied to the use aforesaid. The principal sum of said Fund shall not be expended for any purpose.

such degrees will be conferred only after satisfactory proof of the faithful and successful prosecution of courses of study fully equal in extent and quality to those required for similar honors in the best Universities.

Notice of application for examination must be given to the President at least two months before Commencement. The fee for the Diploma of the second degree is ten dollars, and of subsequent degrees thirty dollars, and the necessary expenses of examination, to be paid to the Treasurer by the twentieth day of June next preceding the annual meeting of the Board of Trustees at which action is to be taken.

EXPENSES.

DISCIPLINE.

The President, in accordance with the By-Laws and Resolutions of the Board of Trustees, shall supervise and direct the course of instruction and the discipline of the College.

It is earnestly desired by the government of the University, that the students may be influenced to good conduct and diligence in study, by higher motives than fear of punishment. The sense of duty and honor, and the generous feelings which belong to young men and women engaged in honorable pursuits, are appealed to as the best regulators of conduct. The following rules, however, have been enacted for the guidance of students:

1. Every student shall be subject to the laws and government of the College, and show in speech and behavior all proper respect and obedience to the Faculty. Any transgression of this law may be punished, even to expulsion, as the nature and aggravation of the offense may demand.

2. If any student shall injure the person, property, or premises of a fellow student, or of any other person within the town of Canton; or deface, or in any way injure the College walls, furniture or buildings, he shall make reparation therefor, according to the nature of the offense or injury; and also be subject to such punishment as the case may require.

3. Every student of the University, during the hours of study, shall abstain from hallooing, singing, loud talking, playing on any musical instrument, and from making any disorderly noises in or around the College buildings.

4. No student shall go out of town, so as to be absent from any College exercises, without leave first obtained of the President or of some member of the Faculty.

5. When any member of the Faculty shall be convinced that a student is guilty of frequenting bar-rooms, billiard-rooms or saloons; or of disorderly behavior; or of keeping improper company; or of idleness, or profane language, or of profaning the Sabbath; or of the habitual use of intoxicating drinks; or that he is frequently absent from his room late at night, or during study hours without sufficient reason; he shall admonish him of his behavior; and if he continues unreformed, it shall be reported to the Faculty, who shall admonish him again, and make known his case to his parents or guardian; and if he still persists in such course he shall be expelled, and shall not be re-admitted except by vote of the Faculty.

6. Every student shall be answerable for all vicious, scandalous and immoral conduct during the several vacations, the same as in term-time.

7. Monthly reports of the standing and conduct of each student are made to his parents or guardian by the President; hence, if a student falls behind in his studies, or becomes disorderly, it is quickly known to those most interested.

FREE SCHOLARSHIPS.

The Trustees of the University have established the following Free Scholarships:

Four Scientific and four Classical Scholarships (one of each annually) to the Canton Union School, Canton, and to the Clinton Liberal Institute, Fort Plain.

Four Classical Scholarships (one annually) to the Union School, Massena, to the Union School, Waddington, and to the Ogdensburg Academy, Ogdensburg.

Two Scientific and two Classical Scholarships (one annually) to the Union School, Hermon, to Lawrenceville Academy, Lawrenceville, and to the Gouverneur Wesleyan Seminary, Gouverneur.

Four Scientific Scholarships (one annually) to the Village Schools of Madrid, Colton, Richville, Heuvelton, Russell and Morley.

These Scholarships are granted and established under the following conditions and regulations:

1. They may be granted to students of either sex; and shall be held to cancel all claims for tuition.

2. The candidate for a Scholarship shall declare his purpose to pursue a full course of four years in the University. In case any student shall, for any reason, abandon the course without completing it, unless excused by the President, he shall pay tuition in full for all the time he has attended the University under such Scholarship.

3. The candidate shall present to the President evidence of good moral character; shall be in good health, and pledged to study the laws of health and observe them; and shall not be less than fifteen years old.

4. A willful violation of the Rules and Regulations of the University; the use of intoxicating liquors as a beverage; or any course of conduct unbecoming a young man or a young woman as a member of the University, shall be deemed by the President a sufficient reason to cancel said Scholarship. In case any student holding one of these Scholarships shall fail to maintain the requisite standing for continuance in the University, or from sickness, or any other cause, is absent for two successive terms from the regular exercises of his class, the Scholarship may be declared vacant by the President.

5. The Boards of Education of the several schools, to whom all applications should be made, shall have sole power to nominate candidates for these Scholarships. These Boards are restricted, however, to the nomination of such as are actually members of the schools which they represent. If two or more applications be made for the same scholarship it is recommended by the University that the nomination be made upon the result of a competitive examination, all other things being equal.

6. The candidate, upon receiving a nomination for a Free Scholarship from such Board, shall be required to pass, *without conditions*, an examination upon those branches required for entrance (see page 14) before becoming entitled to its provisions.

INSTRUCTION IN GERMAN.

Prof. Forbes, an interested and critical student of German Theology, has classes in German throughout the course. An unusually favorable opportunity is thus offered students to take up the study of German and to become acquainted with "German Theology" by access to its original sources.

INFORMATION.

FOUNDATION.

This school was established in April, 1858, through efforts which originated in the New York Universalist Educational Society, and is sustained by the Universalist Denomination of Christians. It was the first school of Theology established by the Denomination, and it numbers more than one hundred and fifty active ministers among its alumni.

REQUISITES FOR ADMISSION.

Applicants for admission must bring satisfactory testimonials as to their moral and religious character; if they are members of any church, they should bring certificates to that effect. They must also well sustain examination in the preparatory branches of an English education. They must be believers in the Holy Scriptures, must accept the Winchester Confession of Faith, and must have a fixed determination to devote their lives to the Christian ministry.

DIPLOMAS.

The regular course of instruction extends through three years. Those only will be considered graduates of the School and entitled to its diploma, who shall have completed the three years' course of study herein laid down. Those who desire, may pursue a partial course, and will be entitled to a certificate stating the extent of the same.

DEGREES.

A Post Graduate Course has been established, to be completed in one year. The degree of *Bachelor of Divinity* is conferred on those completing this course, or its equivalent.

FISHER MEMORIAL HALL.

Particular attention is directed to the new building erected for the special and exclusive use of the Theological School, and designed as a permanent and suitable memorial of its first President, the late Ebenezer Fisher, D. D. It was dedicated in

June, 1883. It is built of the Canton marble, a fine French gray stone, is trimmed with the Potsdam sandstone, and is constructed in the most solid and thorough manner throughout. In style it is Gothic. It contains recitation rooms, office, and society rooms, but its principal feature is the Chapel, which is designed both without and within to bring into prominence the memorial character of the building. With the completion of this Hall, the Canton Theological School enjoys facilities of every kind which place it on a level with the first institutions of its class in the country.

HERRING LIBRARY.

This library was founded by the munificence of the late Silas C. Herring, of New York. It contains a valuable and well selected collection of about 9,000 volumes. Among its contents are the libraries of the late Rev. Samuel C. Loveland and of the late Prof. Dr. K. A. Credner, of the University of Giessen. The latter is especially rich in the departments of Biblical Criticism and Ecclesiastical History, and contains a large amount of rare and valuable literature of the early decades of the sixteenth century: works of Zwingli, Luther, Erasmus, Melancthon, Reuchlin, Bugenhagen, and other noted writers of the era of the German Reformation. Many of these books are exquisitely bound.

The library is being enlarged gradually by means of a fund donated for the purpose, and contributions from friends. It is hoped that the present collection may be only a nucleus for large accessions in the future.

Valuable private libraries are also accessible to students of the School.

READING ROOM.

The Reading Room, as at present conducted, is under the joint management and is for the joint use of the two departments. An annual fee of $1.00 from each student is required by the Board of Trustees, for its support, and as the condition of enjoying all its privileges. In addition to a large list of secular publications, the Reading Room keeps on file the following denominational and religious publications:

Christian Leader, *Independent*, *Christian Register*, *Gospel Banner*, *Universalist*, *New Englander*, *Christian Union*, *Advance*, *Universalist Quarterly*, *Unitarian Review*, *Bibliotheca Sacra*, *Sunday School Helper*, *Andover Review*, *Old Testament Student*, *Edinburg Review*, *British Quarterly Review*, *Westminster Review*, *Blackwood's Magazine*, *London Review*.

GENERAL EXERCISES.

Lessons in Rhetoric and in Elocution are given at intervals, usually on Monday afternoons.

After the study of Homiletics is commenced, in the second year, sermons are preached and criticised on Wednesday of each week during the remainder of the course.

A critical and exegetical study of the Greek Testament is pursued during the Second and Third years, under the direction of the Professor of Biblical Languages.

Conference meetings, conducted in succession by the Professors and by the Students of the different classes, are held every Sunday afternoon in the Chapel.

Examinations, either oral or written, are a regular order at the close of each term.

TERMS AND VACATIONS.

The Academic Year commences on the fourth Wednesday in September, and ends on the last Thursday in June.

There are two vacations; one of three weeks at the close of the first term; the next of eleven weeks next preceding the commencement of the Academic year.

EXPENSES.

No charge is made for tuition, or for the use of the library.

Good Board is furnished in the institution at $3.00 per week, washing included.

Students who board in the institution are expected to furnish their own bedding and the furniture of their rooms.

Board may also be obtained in private families at favorable rates.

The necessary expenditure for each student is, at the minimum, about $180 a year.

The General Convention grants aid by means of loans to students desiring to avail themselves of it. They can add to their resources by preaching during vacations, or at other times when deemed advisable by the Faculty.

THE LESTER TAYLOR FUND.

The foundation of a fund for the benefit of students who are unable to defray the expenses of their own education (in this School) for the Universalist Ministry, has been laid by the thoughtful generosity of the late Lester Taylor, of Fly Creek, N. Y. It is known as the "Lester Taylor Fund," and, although the

income is as yet small, there is good promise of its increase at an early day to a sum sufficient to yield considerable aid. To the extent to which the increase of this fund can be availed of, students will be saved the necessity of incurring debt by loans from other sources.

THE SARAH A. GAGE FUND.

The Theological School is now receiving income from the fund left by the late Miss Sarah A. Gage, of Hudson, for the "support and education" of students for the ministry of the Universalist Church. To the extent to which this fund is available it will hereafter be used for the benefit of those students who come within the conditions of the bequest.

MISCELLANEOUS.

As a general answer to many inquiries it may be stated here that, (1) The Canton Theological School is located at the county seat of St. Lawrence county, in Northern New York, on the Rome, Watertown & Ogdensburg R. R.; (2) That the University buildings are within the corporation, near the railway station, and conveniently situated for those who desire to board in the village; (3) That one of the oldest and best Universalist parishes in the State is here, while the Universalist element is strong in the whole region; (4) That the opportunities for undistracted study are equal to the best; and that in the item of expense, a student could scarcely expect to be more favorably conditioned. It may be further stated that Canton has the reputation of being one of the healthiest places in the country—a reputation which it has amply sustained in the experience of twenty-seven classes of students.

Theological Students are eligible to the privilege of instruction in any of the regular classes or courses in the College. But they are required to obtain permission from the Faculty to enter on any such study, and are allowed to pursue it only to such extent as will not interfere with work in their own department.
